

Recommendations for energy planning

Given its interest in encouraging Aargau municipalities and regions to develop their own energy plans, the canton of Aargau commissioned EBP to develop a specifications catalogue including a checklist for drafting energy plans in the canton of Aargau. In the resulting document, we provide recommendations for the drafting process to help the municipalities identify the topics that need to be addressed and the specifications that need to be met to receive cantonal funding.

Our services

- Identification of funding criteria and minimum requirements for energy plans in the canton of Aargau
- Content checklist to facilitate the process of drafting an energy plan
- Organization of multiple workshops with cantonal and municipal representatives
- Guideline and recommendations for the drafting of municipal and regional energy plans in the canton of Aargau
- Development of GIS resources to facilitate the drafting of uniform energy plans

Client

Canton of Aargau
